Part I Writing

参考范文:

Today there is a growing awareness that mental well-being needs to be given as much attention as physical health.This idea should be embraced by more people, especially in a time when mental illnesses such as depression and anxiety disorder become more prevalent.

Mental health is of vital importan ce,as it will exert a profound influence on every aspect of our lives.An unhealthy mind can cause a persistent feeling of sadness and loss of interest in things we once enjoyed.Over time,such negative emotions will overwhelm us to the point where we cannot carry on with even the most basic tasks.In contrast, when we are in good mental health, we tend to find joy in daily life and thus experience a sense of happiness.This also helps increase our resilience, which means we can be mentally strong enough to bounce back from setbacks and rise to new challenges.

In summary,w e should put as much emphasis on our mental health as we do on physical health.To keep mentally fit, we should not only try our best to stay positive, but also learn to seek professional help if necessary. Furthermore, collective efforts are needed to create a more inclusive social environment,where no one has to suffer the stigma of having mental problems any longer.
